Security Email.

If this is your first time logging in you will be prompted to supply a Security Email.

No Security Email Set

To improve security you must add an email address before accessing your account.
This is required in order to keep you informed of password changes and to send forgotten password links.

Why does CommPortal ask for a Security Email?

CommPortal uses this email address for password recovery in the event you lose your password.

CommPortal will also send a confirmation message to this email if your password is changed.

Winn Telecom **does not** use the email address entered here for anything other than automated password and security notifications.
